The warm weather is still here. Surf 97.3 FM celebrates the arrival of Fall and the departure of Summer. However with warm weather still here in Florida, there's always time for the outdoors. The music from our station is exactly what you need to enjoy a fun day with mother nature. Take us along with you on the drive or listen to us at your desk at work while you dream of being near the water. We are your Sunshine Music Station broadcasting directly from the Flagler Beach Pier. Surf's up!
